

Installing Inscribe on Windows Vista

1. Click on the Inscribe Yellow Folder icon at Medscript-inc.com files section, a File Download dialog will appear.
2. Click the Save button
3. When the Save As dialog appears choose your desktop and click the Save button to start the download.
4. After the download has completed, click on the Inscribe folder at medscript-inc.com to download InScribe.
5. Click the Save button
6. When the Save As dialog appears choose your desktop and click the Save button to start the download.
7. After the install package has downloaded to your desktop, Right Click on the install icon and choose Run as administrator.
8. The installation will begin, you may see a dialog asking your permission to continue, click continue and follow the prompts.
9. After the install has completed you will now need to upgrade your runtime. Locate the file called emdatcomponents.exe and double click on it to start the install.
10. Once the install has completed you can now use InScribe.
